Access data hosted in Microsoft data centres and stored in your preferred region.

Ensure easy and updated online training and onboarding of personnel.

Add more users with a scalable setup that is tailored to your training needs.

Access online training courses hosted in the cloud on the Microsoft Azure platform.

Get access to materials 24/7 and choose the best time to complete your training.

Get a customised duration for the hosted service in 12-month increments.

SYSTEMATIC

Systematic Defence ensures a seamless and secure experience by managing every step of your **system's setup and operation**.

What you get:

- Self-Registration - users can sign up directly through the Aspire Portal
- Access your account securely with Multi-Factor Authentication
- The latest innovations with every quarterly product release

What Aspire Hosting Service requires:

All it requires to get **access to world-class training** is a compatible browser, an Authenticator Application and internet access, anywhere, anytime.

Do you want to **learn more**?

Find out how **SitaWare** Aspire Hosting Service can **help you focus on training** through hands-on and realistic experiences.
